## U.S. ARMY EXHIBIT VISITS LOCAL SCHOOLS

*Traveling Exhibit Features Technology, Science, History and More*

**MILWAUKEE (October 30, 2003)** – The U.S. Army is set to visit classrooms in Wisconsin and Michigan's Upper Peninsula next month with its Multiple Exhibit Vehicle (MEV). This touring exhibit is a popular Army resource geared to support teachers and to stimulate students' desire to know more about the subjects they are studying in school.

The U.S. Army MEV is a hummer on the outside with a multimedia presentation on the inside. The hummer transports a DVD projector, projection screens, and display equipment. It is armed with educational-oriented DVD presentations and its mission is to reinforce classroom instruction by showing a presentation that a teacher identifies as beneficial and complementary to the classroom's current curriculum.

This mobile "theater" joins science classes and leading physicists in the exploration of black holes. It provides civics classes a dramatic and inviting look at the U.S. Constitution. It introduces social studies classes to archaeologists in the midst of exploration. Whether the subject is technology, science or history, to name a few, the U.S. Army's MEV is an exciting educational tool for high school students and teachers alike.

Any media representatives wishing to cover a MEV visit at one of the following locations should contact Sara Keller, U.S. Army Recruiting Battalion, at 414-297-4596.

November 3	Appleton North High School – Appleton, WI
November 4	Green Bay Southwest High School – Green Bay, WI
November 5	Oconto Falls High School – Oconto Falls, WI
